

Name: \_\_\_\_\_

Directions: Identify whether the following information describes a linear, quadratic, and/or exponential function. Describe the graph for each type of function that would meet this criteria.

Function Characteristic	L, Q, and/or E	Graph Description										
1. The graph has the following end behavior: $as x \rightarrow \infty, y \rightarrow \infty$ $as x \rightarrow -\infty, y \rightarrow \infty$												
2. The graph has an x-intercept of (-1,0) and (1,0).												
3. The range of the function is $[0, \infty)$												
4. The graph has the following end behavior: $as x \rightarrow \infty, y \rightarrow \infty$ $as x \rightarrow -\infty, y \rightarrow -\infty$												
5. <table border="1" data-bbox="152 778 494 874" style="margin: 10px auto;"> <tr> <td>x</td> <td>-1</td> <td>0</td> <td>1</td> <td>2</td> </tr> <tr> <td>y</td> <td>2</td> <td>4</td> <td>6</td> <td>8</td> </tr> </table>	x	-1	0	1	2	y	2	4	6	8		$+2 \rightarrow$ constant Rate of Change
x	-1	0	1	2								
y	2	4	6	8								
6. The domain of the function is $(-\infty, \infty)$												
7. The graph has the following end behavior: $as x \rightarrow \infty, y \rightarrow 2$ $as x \rightarrow -\infty, y \rightarrow \infty$		 <p style="text-align: right;">↓ Asymptote</p>										
8. The graph has a y-intercept of (0,-2).												
9. There is an asymptote of $y=0$ .												
10. The range of the function is $(-\infty, 2]$												

11. The rate of change is the same between each point on the graph.	$L, \varepsilon$	Add same # Multiply same #										
12. The graph has the following end behavior: $as x \rightarrow \infty, y \rightarrow -\infty$ $as x \rightarrow -\infty, y \rightarrow \infty$	$L$											
13. There is no x-intercept.	$Q, \varepsilon$											
14. The graph has an x-intercept of (2,0).	$L, \varepsilon, D$											
15. <table border="1" data-bbox="154 494 492 590"> <tr> <td>x</td> <td>-1</td> <td>0</td> <td>1</td> <td>2</td> </tr> <tr> <td>y</td> <td>2</td> <td>4</td> <td>8</td> <td>16</td> </tr> </table>	x	-1	0	1	2	y	2	4	8	16	$\Sigma$	Multiply by 2 growth
x	-1	0	1	2								
y	2	4	8	16								
16. <table border="1" data-bbox="154 662 492 758"> <tr> <td>x</td> <td>-1</td> <td>0</td> <td>1</td> <td>2</td> </tr> <tr> <td>y</td> <td>3</td> <td>6</td> <td>12</td> <td>21</td> </tr> </table>	x	-1	0	1	2	y	3	6	12	21	$Q$	Double Difference
x	-1	0	1	2								
y	3	6	12	21
